MotionProtect Fibra is the device of the new Fibra wired product line. Such devices can only be purchased, installed and administered by accredited Ajax Systems partners.

Up to 12 m detection distance

88.5° horizontal and 80° vertical viewing angles

SmartDetect software algorithm to prevent false alarms

Immunity to pets with a weight of up to 20 kg and height up to 50 cm

Fibra is a **two-way wired protocol**, ensuring fast and secure communication between hubs and devices. Based on a **bus connection method**, Fibra delivers instant data-rich alarms: security companies and users know which device was triggered, when and where it happened.

Fibra features **encryption** and **authentication** to prevent forgery, and **polling** to display device's status in real time. Supporting **up to 2,000 m** of wired connectivity, Fibra is ready to protect any facilities, and deliver **the best user experience** for both end users and installers.

PIR sensor coverage angles

System features

Connecting to a hub via bus method

Up to 2,000 m of two-way encrypted communication

12–300
sec

Adjustable polling interval

Tampering alarm notification

Remote configuring via a smartphone or desktop app

Adding to the security system via QR code or bus scanning
